

Fixture Photo Guide

Photo guide to common cooking and drinking water sources

Overview

This photo guide highlights fixtures that are commonly used to provide cooking and drinking water at child care facilities. Use this visual guide to help identify your facility's cooking and drinking water sources. This guide may not represent every source at your facility, so be sure to conduct a walkthrough to identify any additional sources.

Kitchen Sink

Classroom Sink

Restroom Sink

Drinking Fountain

Automatic Ice Maker

Water Dispensers

Water Bottle Filling Station
